PennHIP Report

Referring Veterinarian: Dr Bret Morgan

Email: bmorgan@nva.com

Clinic Name: East Springs Animal Hospital

Clinic Address: 5629 Constitution Ave

Colorado Springs, CO

80915

Phone: (719) 591-4545 Fax: (719) 591-4899

Patient Information

Client: Smith, Laurie

Patient Name: Zoey

Reg. Name: Zendaya Zelda Zorya Zoey Smith

PennHIP Num: 174364 Species: Canine

Date of Birth: 14 Jan 2021 Sex: Female

Date of Study: 31 May 2022 Date of Report: 06 Jun 2022 Tattoo Num:

Patient ID: 147204

Registration Num: PR23627906 Microchip Num: 981020041229669

Breed: STANDARD POODLE

Age: 16 months

Weight: 39 lbs/17.7 kgs

Date Submitted: 01 Jun 2022

Findings

Distraction Index (DI): Right DI = 0.30, Left DI = 0.30.

Osteoarthritis (OA): No radiographic evidence of OA for either hip.

Cavitation/Other Findings: No cavitation present.

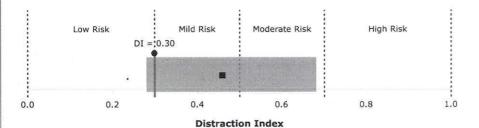

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is

OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.

Distraction Index Chart:

STANDARD POODLE

BREED STATISTICS: This interpretation is based on a cross-section of 5574 canine patients of the STANDARD POODLE breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.28 - 0.68) for the breed. The breed average DI is 0.46 (solid square). The patient DI is the solid circle (0.30).

SUMMARY: The degree of laxity (DI = 0.30) falls within the central 90% range of DIs for the breed. This amount of hip laxity places hip at a minimal risk to develop hip OA. No radiographic evidence of OA for either hip.

INTERPRETATION AND RECOMMENDATIONS: No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. Recommendations: Normal to strenuous activity is permitted. Keep lean: try to maintain BCS at 5/9 for a longer and healthier life. Breeding Recommendations: Please Consult the PennHIP Manual.
